

David S. Feldman, MD

Pediatric Orthopedic Surgeon

SPECIALTIES: Scoliosis and spinal deformity, hip preservation, limb lengthening & reconstruction surgery

MEDICAL TRAINING: Albert Einstein College of Medicine, Bronx, New York

RESIDENCY: Orthopedic Surgery, NYU Hospital for Joint Diseases, New York City

FELLOWSHIP: The Hospital for Sick Children, Toronto, Ontario

When it comes to the most complex orthopedic cases in pediatric spine and limb deformities and diseases, patients young and old and their families travel from all 50 states and more than 90 countries to seek the world-renowned expertise of orthopedic expert and Board-Certified Orthopedic Surgeon **Dr. David S. Feldman**. When he is not in West Palm Beach serving as Director of the Spinal Deformity Center and the Hip Pain Center at the Paley Orthopedic & Spine Institute, where he is also associate director, Dr. Feldman is traveling to see patients in New York, Poland and Israel.

Dr. Feldman delivers the whole spectrum of treatment of spinal problems for infants, children and adults, with a strong focus on scoliosis in children with deformities or unusual diseases and specialized hip treatments at the Paley Orthopedic & Spine Institute. "I feel fortunate to be able to provide South Florida with safe, non-invasive techniques, such as Schroth Therapy, minimally invasive techniques such as tethering (VBT) and growing rod treatment with the MAGEC® System by NuVasive, as well surgical techniques to correct complex hip and limb deformities. Scoliosis treatments, both surgical and non-surgical, including physical therapy and special bracing methods, have shown great results and relief for the patients I serve," explains Dr. Feldman.
